ABOUT THE INSTITUTION

Established in 1993 by the visionary Late Shri J. Bhaskar Rao, the J.B. Educational Society, with its 106-acre campus, has evolved into a beacon of quality education in India, offering programs in Engineering, Pharmacy, Law, and Management. JBIET, founded in 1998 as the society's first engineering college, marked the beginning of its expansion into the fields of engineering and management. The institution was accorded with autonomous status by the University Grants Commission in the year 2014 and has been permanently affiliated to JNTUH since 2007. It is accredited with an 'A' Grade by the National Assessment and Accreditation Council (NAAC) and is recognized under Tier-1 category by the National Board of Accreditation (NBA).

Approved by the All India Council for Technical Education (AICTE), JBIET has grown from its original four B.Tech. programs to offer 12 undergraduate, 6 postgraduate programs and 2 JNTUH approved research programs. With a dynamic student body and a dedicated fleet of faculty, JBIET provides a robust foundation in engineering and technology, while promoting research, creativity, and entrepreneurship. The institute continues to shape the future of its students and exemplifying a commitment to excellence and academic growth as evident from its distinguished alumni.

ABOUT FDP

In the evolving landscape of education, continuous professional development is crucial for faculty members to maintain and elevate their teaching effectiveness and research capacity. The "Enhancing Teaching Excellence and Research Capacity for the 21st Century Teachers" is designed to address these needs and align with the institutional goals of fostering a culture of continuous learning and professional growth. By investing in faculty development, we can enhance teaching excellence, research capacity, and overall institutional quality. This program will empower faculty members to achieve their full potential, ultimately benefiting our students and the broader academic community.

ABOUT THE DEPARTMENT

The Department of English at JBIET, comprising 11 faculty members from various central universities and esteemed institutions across the country, offers a comprehensive array of courses aimed at enhancing diverse language skills. These courses include English for Skill Enhancement, Technical Writing Skills, Soft Skills, Team Work, and Team Building, all designed to refine students' abilities in presentation, interviewing, report writing, and resume crafting. The English Language and Communication Skills Lab focuses on the core areas of language competency: Listening, Speaking, Reading, and Writing.

Additionally, the department has established a Language Club that motivates students to showcase their skills on public platforms and engage in extracurricular activities. In partnership with Cambridge University Press and Assessments, the department provides an audit course to further develop students' language proficiency. Moreover, it has also mandated LinguaSkill, an international language proficiency test, for all students, thereby validating their skill sets and strengthening their resumes.
